

"I am pleased to write you this email of recommendation towards global inspection company VIC Worldwide.

Throughout the years I have been working with them in a number of jurisdictions in Europe, the Middle East and Asia and they have been thoroughly professional, proactive and highly reliable.

VIC is also a pioneer in the fields of real-time information, mobile and desktop applications for instant inspection streaming and real time customer feedback during audit & inspection.

I would happily recommend VIC Worldwide to perform any inspection, audits, sampling and analysis assignments for industry peers.

Having previous experience with VIC as our protective inspector in my previous firm, I have also proudly recommended VIC to Noble and they have been our partner for the past year. "
